### Academic Program Requirements

The MBA degree requires the completion of 36 to 45 credits depending on prior academic coursework. The MBA in Business Administration consists of foundation, core, and elective courses while the MBA in Public Accountancy includes foundation and core courses.

MBA degree requirements must be completed within seven years of acceptance into the program, with a cumulative average of no less than 3.0 (4.0 scale and with no more than two grades below a B-). All MBA courses must be completed with a grade of C or higher for progression in the program.

The foundation segment comprises seven courses that are designed to provide students coming from an academic discipline outside of business with the requisite knowledge required for successful completion of the core courses. The foundation courses must be taken before the core and elective courses and students must earn a "B" or better in each of these courses. Candidates with a B.S./B.A. in Business Administration or Accounting may receive waivers for some of the foundation courses if they earned a B or higher in those courses.
