COMPUTER SCIENCE (CPS)

CPS500. Computer Graphics. 3 Credits.
Graphics software and hardware, representation of points, lines, and surfaces in three dimensions, windowing, clipping, hidden surfaces and lines, shading.
Restrictions:
  • Must have the following level: Graduate
Prerequisites:
  • Computer Science MS Prelim Minimum Score of 1

May not be repeated for credit

CPS501. Computer Systems. 3 Credits.
A study of computer systems covering both software and hardware. Topics include number systems, machine language, assembly language, linking and loading, digital electronics, microprogramming, and computer architecture.
Restrictions:
  • Must have the following level: Graduate
Prerequisites:
  • Computer Science MS Prelim Minimum Score of 1

May not be repeated for credit

CPS502. Computer Simulation. 3 Credits.
Use of the computer as a simulation tool, discrete and continuous simulation techniques, simulation languages, selected applications such as queuing theory, financial analysis, and simulation of computer systems.
Restrictions:
  • Must have the following level: Graduate
Prerequisites:
  • Computer Science MS Prelim Minimum Score of 1

May not be repeated for credit

CPS520. Concurrent Programming. 3 Credits.
Mutual exclusion, Dekker’s algorithm, semaphores, languages for concurrent programming, applications in operating systems.
Restrictions:
  • Must have the following level: Graduate
Prerequisites:
  • Computer Science MS Prelim Minimum Score of 1

May not be repeated for credit

CPS522. Operating Systems. 3 Credits.
A comprehensive investigation of Operating Systems concepts, including the following topics: Process Management, Memory Management, File Management, Input/Output, and Deadlocks. Examples of these concepts will be illustrated using the Unix operating system.
Restrictions:
  • Must have the following level: Graduate
Prerequisites:
  • Computer Science MS Prelim Minimum Score of 1

May not be repeated for credit

CPS524. Parallel Computation. 3 Credits.
Efficient parallel algorithms on arrays, trees, hypercubes, and PRAMS for a variety of problems. Structural properties of various network architectures and their relationships.
Attributes:
  • Liberal Arts
Restrictions:
  • Must have the following level: Graduate
Prerequisites:
  • Computer Science MS Prelim Minimum Score of 1

May not be repeated for credit

CPS526. Advanced Data Structures. 3 Credits.
In-depth study of methods for organizing, retrieving, and modifying data in digital computers, as well as mathematical analysis of these techniques.
Attributes:
  • Liberal Arts
Restrictions:
  • Must have the following level: Graduate
Prerequisites:
  • Computer Science MS Prelim Minimum Score of 1

May not be repeated for credit

CPS528. Algorithms. 3 Credits.
Algorithms for a variety of applications. Various design and analysis techniques. Probabilistic and approximation algorithms.
Attributes:
  • Liberal Arts
Restrictions:
  • Must have the following level: Graduate
Prerequisites:
  • Computer Science MS Prelim Minimum Score of 1

May not be repeated for credit

CPS530. Computer Networks. 3 Credits.
Network topology and communication media, resource sharing, performance analysis, protocols, local networks.
Restrictions:
  • Must have the following level: Graduate
Prerequisites:
  • Computer Science MS Prelim Minimum Score of 1

May not be repeated for credit
CPS532. Theory of Computation. 3 Credits.
The course focuses on computability and computational complexity. The course covers Turing machines, grammars, and recursive functions.

Attributes:
- Liberal Arts

Restrictions:
- Must have the following level: Graduate

Prerequisites:
- Computer Science MS Prelim Minimum Score of 1

May not be repeated for credit

CPS535. Formal Languages. 3 Credits.
This course covers phrase-structure languages, automata, and their languages, applications of formal languages to pattern recognition.

Restrictions:
- Must have the following level: Graduate

Prerequisites:
- Computer Science MS Prelim Minimum Score of 1

May not be repeated for credit

CPS540. Artificial Intelligence. 3 Credits.
The course covers basic problem solving methods, game playing, knowledge representation using first order logic, knowledge representation using other logics, theorem proving, pattern recognition, and symbolic processing.

Restrictions:
- Must have the following level: Graduate

Prerequisites:
- Computer Science MS Prelim Minimum Score of 1

May not be repeated for credit

CPS545. Advanced Operating Systems. 3 Credits.
The course covers the study of modern operating systems. The course includes process, memory, device, and file management, virtual machines, distributed systems, security, reliability, and performance analysis.

Restrictions:
- Must have the following level: Graduate

Prerequisites:
- Computer Science MS Prelim Minimum Score of 1

May not be repeated for credit

CPS550. Software Engineering. 3 Credits.
This course focuses on program development tools, structured design and programming methodologies, software testing and validation, and managing software development.

Restrictions:
- Must have the following level: Graduate

Prerequisites:
- Computer Science MS Prelim Minimum Score of 1

May not be repeated for credit

CPS552. Object Oriented Programming. 3 Credits.
The course focuses on the concepts of object oriented programming, including encapsulation, aggregation, inheritance, constructors, destructors, polymorphism, and templates. The course also covers various choices for design and implementation. Writing programs is typically a major component of this course.

Restrictions:
- Must have the following level: Graduate

Prerequisites:
- Computer Science MS Prelim Minimum Score of 1

May not be repeated for credit

CPS554. User Interface Programming. 3 Credits.
This course introduces methodologies, techniques, libraries, interfaces, and tools to design and implement window-based graphical user interfaces. The course is typically a programming intensive course.

Restrictions:
- Must have the following level: Graduate

Prerequisites:
- Computer Science MS Prelim Minimum Score of 1

May not be repeated for credit

CPS555. Advanced Database Principles. 3 Credits.
The course covers recovery, integrity, concurrency, data models, extended relational model, distributed databases, and database machines.

Restrictions:
- Must have the following level: Graduate

Prerequisites:
- Computer Science MS Prelim Minimum Score of 1

May not be repeated for credit

CPS560. Cryptography. 3 Credits.
The course covers transposition ciphers, substitution ciphers, algebraic systems, block ciphers, public key systems, and data encryption standard.

Restrictions:
- Must have the following level: Graduate

Prerequisites:
- Computer Science MS Prelim Minimum Score of 1

May not be repeated for credit

CPS565. Compiler Design. 3 Credits.
The course covers compiler design and implementation using top-down and bottom-up parsing. The course includes scanner and parser generators.

Restrictions:
- Must have the following level: Graduate

Prerequisites:
- Computer Science MS Prelim Minimum Score of 1

May not be repeated for credit
**CPS567. Compiler Optimizations. 3 Credits.**
An overview of the evolving field of compiler optimizations. Internal program representations, local and global optimizations, control flow analysis, data flow frameworks, static single assignment form, control dependence analysis, automatic parallelization, interprocedural analysis, pointer alias analysis, loop transformations.

Restrictions:
- Must have the following level: Graduate

Prerequisites:
- Computer Science MS Prelim Minimum Score of 1

May not be repeated for credit

**CPS570. Systems Programming. 3 Credits.**
Systems programming in assembly and/or high-level language. Students will write several systems programs, such as a RAM disk and a virus detection program.

Restrictions:
- Must have the following level: Graduate

Prerequisites:
- Computer Science MS Prelim Minimum Score of 1

May not be repeated for credit

**CPS575. Advanced Computer Architecture. 3 Credits.**
Study of current trends in computer architecture with topics selected by instructor. Among these may be parallel processing, capability-based systems and microprocessor architecture.

Restrictions:
- Must have the following level: Graduate

Prerequisites:
- Computer Science MS Prelim Minimum Score of 1

May not be repeated for credit

**CPS580. Functional Programming. 3 Credits.**
The functional language mode, lambda calculus, functional programming in one or more languages, the design and implementation of an interpreter for a functional programming language.

Restrictions:
- Must have the following level: Graduate

Prerequisites:
- Computer Science MS Prelim Minimum Score of 1

May not be repeated for credit

**CPS593. Computer Science Selected topic. 3-12 Credits.**
Selected topics courses are regularly scheduled courses that focus on a particular topic of interest. Descriptions are printed in the Schedule of Classes each semester. Selected topics courses may be used as elective credit and may be repeated for credit, provided that the topic of the course changes.

Restrictions:
- Must have the following level: Graduate

May be repeated for credit

**CPS594. Fieldwork Comp Science. 1-12 Credits.**

Attributes:
- Liberal Arts

Restrictions:
- Must have the following level: Graduate

May not be repeated for credit

**CPS595. Indep Study Comp Science. 1-12 Credits.**

Restrictions:
- Must have the following level: Graduate

May be repeated for credit

**CPS599. Comprehensive Exam Workshop. 0 Credits.**

Restrictions:
- Must have the following level: Graduate
- Must be enrolled in the following field(s) of study (major, minor or concentration): Computer Science (270)

May not be repeated for credit

**CPS693. Computer Science Selected Topic. 3-12 Credits.**

Restrictions:
- Must have the following level: Graduate

May be repeated for credit

**CPS793. Computer Science Selected Topic. 3-12 Credits.**
Selected topics courses are regularly scheduled courses that focus on a particular topic of interest. Descriptions are printed in the Schedule of Classes each semester. Selected topics courses may be used as elective credit and may be repeated for credit, provided that the topic of the course changes.

Restrictions:
- Must have the following level: Graduate

May be repeated for credit

**CPS795. Indep Study Comp Science. 0 Credits.**

Restrictions:
- Must have the following level: Graduate

May be repeated for credit

**CPS799. Continued Registration. 1 Credit.**

Restrictions:
- Must have the following level: Graduate

May be repeated for credit
