

# PLAN OF STUDY

---

Once students receive an offer of admission to a graduate program and confirms their intention to enroll, they should meet with their assigned adviser to review the Plan of Study, which is available via [my.newpaltz.edu](http://my.newpaltz.edu). The Plan of Study lists all of the courses that will comprise the student's degree program. Only two courses below B- (2.67 on the 4.00 scale) are counted toward a graduate degree. Matriculated students with four or more grades below B- will forfeit their matriculated status. ***Please note that neither undergraduate courses nor graduate courses with a grade of F may be included on a graduate Plan of Study.***

The advisor may make minor plan amendments by submitting an online Plan Amendment Request, which must be approved by the Associate Provost and Dean of GPIS.
