Implementation: The applicant must have demonstrated communication skills sufficient to achieve effective clinical and professional interaction with clients/patients and relevant others. In addition, the applicant must have demonstrated the ability to write and comprehend technical reports, diagnostic and treatment reports, treatment plans, and professional correspondence.

Standard V-B

The applicant for certification must have completed a program of study that included experiences sufficient in breadth and depth to achieve the following skills outcomes:

Evaluation

- Conduct screening and prevention procedures (including prevention activities).
- Collect case history information and integrate information from clients/patients, family, caregivers, teachers, and relevant others, including other professionals.
- Select and administer appropriate evaluation procedures, such as behavioral observations, nonstandardized and standardized tests, and instrumental procedures.
- Adapt evaluation procedures to meet client/patient needs.
- Interpret, integrate, and synthesize all information to develop diagnoses and make appropriate recommendations for intervention.
- Complete administrative and reporting functions necessary to support evaluation.
- Refer clients/patients for appropriate services.

Intervention

- Develop setting-appropriate intervention plans with measurable and achievable goals that meet clients'/patients' needs. Collaborate with clients/patients and relevant others in the planning process.
- Implement intervention plans (involve clients/patients and relevant others in the intervention process).
- Select or develop and use appropriate materials and instrumentation for prevention and intervention.
- Measure and evaluate clients'/patients' performance and progress.
- Modify intervention plans, strategies, materials, or instrumentation as appropriate to meet the needs of clients/patients.
- Complete administrative and reporting functions necessary to support intervention.
- Identify and refer clients/patients for services as appropriate.

Interaction and Personal Qualities

- Communicate effectively, recognizing the needs, values, preferred mode of communication, and cultural/linguistic background of the client/patient, family, caregivers, and relevant others.
- Collaborate with other professionals in case management.
- Provide counseling regarding communication and swallowing disorders to clients/patients, family, caregivers, and relevant others.
- Adhere to the ASHA Code of Ethics and behave professionally.
