The Psychology Graduate Program offers a 39-credit Master of Science degree in Psychological Science. This research-based program exposes students to research in a variety of fields including social, cognitive, developmental, and applied psychology. In addition, students learn advanced statistical and experimental and non-experimental methodological skills. The degree may serve as preparation for entry into a doctoral program or as additional training for those who plan to enter or continue work in applied areas of psychology with an emphasis on research.
