Behavior Analysis and Interdisciplinary Autism Studies is a 41-credit, licensure-qualifying program leading to a Master of Science degree. This program offers students education and training in the field of behavior analysis, the history of autism spectrum disorders, characteristics of autism, family systems, educational strategies, and interdisciplinary approaches to providing services and supports. The program meets the educational content requirements for New York State Licensed Behavior Analyst (LBA) licensure as well as the coursework requirements for Behavior Analyst Certification Board’s (BACB) certification as a Board Certified Behavior Analyst (BCBA). As part of the coursework requirement, students will complete a supervised practicum to obtain the initial 150 hours of the required 1500 hours needed to qualify for the NY-LBA and the required 2000 hours needed to qualify for the BCBA.

**Behavior Analytic Coursework**

Students learn the foundational concepts and principles of the science of human behavior and learning that are the basis of the field of behavior analysis. The mission of our program is to train practitioners who make ethical, collaborative, culturally responsive, and data-based decisions in their practice in order to support and improve the lives of their students and clients.

**Interdisciplinary Autism Studies**

The interdisciplinary component of the program provides candidates with a comprehensive perspective on autism spectrum disorders, by incorporating coursework from several disciplines, including special education, communication disorders, human services, music therapy, and psychology.

**Admission Requirements**

- One official transcript providing evidence of a baccalaureate degree from an accredited institution with at least a 3.0 cumulative grade point average on a 4.0 scale.
- Contact information for three references capable of addressing your ability to successfully complete a rigorous graduate program in Behavior Analysis & Interdisciplinary Autism Studies.
- A typed statement describing your interest in behavior analysis and working in this field, relevant experiences, and how the master’s program will help you achieve personal and professional goals. The response should be 300-400 words in length. The writing sample will be reviewed with respect to content, clarity and organization of ideas, grammar, and style.
- An interview may be required

**Application Deadlines**

April 1
