PSYCHOLOGY (PSY)

PSY093. Psychology Research Experience. 0 Credits.
Direct experience in psychology research, including experiences as a research participant and/or attending lectures on psychology research, or related activities.
Restrictions:
• Must have the following field(s) of study (major, minor or concentration): Psychology (539)

PSY193. Psychology Select Topic. 3-12 Credits.
Selected topics courses are regularly scheduled courses that focus on a particular topic of interest. Descriptions are printed in the Schedule of Classes each semester. Selected topics courses may be used as elective credit and may be repeated for credit, provided that the topic of the course changes.

PSY272. Introductory Psychology. 3 Credits.
Introduction to psychology. Topics include research methods, states of consciousness, cognition, sensation and perception, developmental psychology, brain and behavior, personality, learning, motivation, social psychology, psychological disorders and treatment.
Restrictions:
• Must have the following field(s) of study (major, minor or concentration): Comm Disorders Cert Program (089)

PSY273. Psychology of Adjustment . 3 Credits.
The adjustment processes through childhood, adolescence, and aging. Topics include: motivation, emotion, learning, marriage, divorce, group behavior, stress, illness, and rehabilitation.

PSY275. Psychological Statistics . 4 Credits.
Introduction to descriptive and inferential statistical procedures commonly used in psychological research. Includes correlations, interval estimation, hypothesis testing with z and t tests.
Prerequisites:
• PSY 272 with a minimum grade of D- and (Math Placement Level with a score of 3 or MAT 151 with a minimum grade of C- or MAT 093 with a minimum grade of C- or MAT 121 with a minimum grade of C- or MAT 120 with a minimum grade of C-)
Restrictions:
• Must have the following level: Undergraduate

PSY279. Psychology Select Topic. 3-12 Credits.
Selected topics courses are regularly scheduled courses that focus on a particular topic of interest. Descriptions are printed in the Schedule of Classes each semester. Selected topics courses may be used as elective credit and may be repeated for credit, provided that the topic of the course changes.

PSY295. Indep Study Psychology. 1-12 Credits.
Prerequisites:
• PSY 272 with a minimum grade of D-
Restrictions:
• Must have the following level: Undergraduate

PSY302. History and Systems in Psychology . 3 Credits.
Philosophies and approaches that have led to contemporary psychology. Major contributors such as James, Freud, Watson, and Skinner, and their psychological approaches.
Prerequisites:
• PSY 272 with a minimum grade of D-
Restrictions:
• Must have the following level: Undergraduate

PSY303. Introduction to the Psychology of Learning . 3 Credits.
Experimental findings in and contemporary theories of learning.
Restrictions:
• Must have the following level: Undergraduate

PSY304. Industrial Psychology . 3 Credits.
A survey of how psychological principles (social perception, learning, cognition, motivation, psychological measurement) are applied to human resources decisions (selection, training, performance appraisal). Fairness and legal implications of such decisions are considered.
Prerequisites:
• PSY 272 with a minimum grade of D-
Restrictions:
• Must have the following level: Undergraduate

PSY305. Psychology of Perception . 3 Credits.
Perceptual processes of form, color, movement, space, localization, and constancy. The psychology of consciousness.
Prerequisites:
• PSY 272 with a minimum grade of D-
Restrictions:
• Must have the following level: Undergraduate

PSY306. Social Psychology . 3 Credits.
Theories and research regarding social behaviors such as conformity, altruism, aggression, attitude-formation, and discrimination.
Prerequisites:
• PSY 272 with a minimum grade of D- or SOC 100 with a minimum grade of D-
Restrictions:
• Must have the following level: Undergraduate

PSY307. Evolutionary Psychology . 3 Credits.
A detailed, critical exploration theory as applied to behavior of humans and other species. Research addressing evolutionary underpinnings of behavior is presented in regard to several classes of behavior (e.g., mating, aggression, cooperation).
Prerequisites:
• PSY 272 with a minimum grade of D-
Restrictions:
• Must have the following level: Undergraduate
PSY308. Psychology of Motivation . 3 Credits.
Identification of basic concepts, theories, and experimental findings of the psychology of motivation.
Prerequisites:
• PSY 272 with a minimum grade of D-
Restrictions:
• Must have the following level: Undergraduate

PSY309. Constructivism. 3 Credits.
Reviews, theories, research, and clinical applications of constructivist approaches to psychology-including, but not limited to, personal construct psychology, radical constructivism, and social constructionism.
Restrictions:
• Must have the following level: Undergraduate

PSY310. Psychology of Memory and Thinking . 3 Credits.
Theories and research regarding the mental processes of acquiring and retaining information for later retrieval, and the manipulation of that information for complex skills such as reasoning, decision-making, and problem solving.
Prerequisites:
• PSY 272 with a minimum grade of D-
Restrictions:
• Must have the following level: Undergraduate

PSY311. Research Methods in Psychology . 4 Credits.
Research methodology in psychology: scientific reasoning and critical thinking, correlational and experimental research approaches, including control, designs, statistical analyses, and hypothesis testing.
Prerequisites:
• PSY 272 with a minimum grade of D- and (PSY 275 with a minimum grade of D- or MAT 241 with a minimum grade of D-)
Restrictions:
• Must have the following level: Undergraduate

PSY315. Basics of Organizational Psychology . 3 Credits.
Introduction to organizational behavior and management, emphasizing psychological and social-psychological theories and findings. Research methods, learning, motivation, stress, communication, leadership, and other topics are discussed, both in general and in relation to work settings. Students may not take both this course and BUS321 for credit.
Prerequisites:
• PSY 272 with a minimum grade of D-
Restrictions:
• Must have the following level: Undergraduate

PSY318. Group Behavior . 3 Credits.
Participation in face-to-face small groups focusing on the group's own behavior. Emphasis is on an understanding of leadership, power, and authority as primary elements of social behavior. Each student is expected to participate actively in group sessions. Available as an alternative to traditional educational approaches. Because of this approach some students may experience stress.
Prerequisites:
• PSY 272 with a minimum grade of D-
Restrictions:
• Must have the following level: Undergraduate

PSY320. Behavior Modification: Principles and Procedures . 3 Credits.
The application of operant learning principles to improve behavior in school, home, institution, and work settings, as well as for personal self-improvement. Practical procedures of changing behavior in the natural environment are discussed.
Prerequisites:
• PSY 272 with a minimum grade of D- and PSY 303 with a minimum grade of D-
Restrictions:
• Must have the following level: Undergraduate

PSY330. Crisis Intervention . 4 Credits.
Basic counseling and crisis intervention skills using a didactic/experiential approach under professional psychological supervision. Theory of intervention in suicide, substance abuse, and developmental crises. Role play practice.
Prerequisites:
• PSY 272 with a minimum grade of D-
Restrictions:
• Must have the following level: Undergraduate

PSY343. Psychology of Infancy and Childhood . 3 Credits.
Theories and research on social, emotional, perceptual, and cognitive development. Implications of this information for child-rearing, education, and society.
Prerequisites:
• PSY 272 with a minimum grade of D-
Restrictions:
• Must have the following level: Undergraduate
PSY344. Psychology of Adolescence and Adulthood . 3 Credits.
Emphasis on the issues, trends, and information pertinent to
development from adolescence through death. Particular attention to
problems of the adolescent, the aged, and the family in today's society.
Prerequisites:
• PSY 272 with a minimum grade of D-
Restrictions:
• Must have the following level: Undergraduate

PSY350. Psychology of Women . 3 Credits.
The psychology of women as conceptualized within traditional
psychological as well as feminist theory. A survey of findings on
women from various fields: personality, cognition, physiological, social,
developmental and abnormal psychology.
Prerequisites:
• PSY 272 with a minimum grade of D- or WOM 220 with a minimum
  grade of D-
Restrictions:
• Must have the following level: Undergraduate

PSY393. Psychology Select Topic. 3-12 Credits.
Selected topics courses are regularly scheduled courses that focus on
a particular topic of interest. Descriptions are printed in the Schedule
of Classes each semester. Selected topics courses may be used as
elective credit and may be repeated for credit, provided that the topic of
the course changes.
Restrictions:
• Must have the following level: Undergraduate

PSY399. Modular Course. 1-12 Credits.
Restrictions:
• Must have the following level: Undergraduate

PSY402. Psychology of Language . 3 Credits.
Study of language behavior and its relation to learning and thought
processes. Attention to language acquisition and psychological
phenomena of speech and speech perception. Social aspects of
language and non-verbal communication.
Prerequisites:
• PSY 272 with a minimum grade of D- or LIN 201 with a minimum
  grade of D- or CMD 301 with a minimum grade of D- or CMD 302 with
  a minimum grade of D-
Restrictions:
• Must have the following level: Undergraduate

PSY403. Health Psychology . 3 Credits.
An examination of how biological, psychological, and social factors
interact to influence individual behavior related to promoting health,
preventing illness, and coping with illness, pain, and stress. Research
techniques and ethical dilemmas in health psychology. Students will keep
an Intellectual Journal.
Prerequisites:
• PSY 272 with a minimum grade of D- and (ENG 180 with a minimum
  grade of D- or ENG 206 with a minimum grade of D- or ENG 170 with a
  minimum grade of D- or ENG 207 with a minimum grade of D-)
Restrictions:
• Must have the following level: Undergraduate

PSY412. Abnormal Psychology . 3 Credits.
Symptoms, causes, and therapies of anxiety disorders, psychoses, and
personality disturbances.
Prerequisites:
• PSY 272 with a minimum grade of D-
Restrictions:
• Must have the following level: Undergraduate

PSY436. Physiological Psychology . 3 Credits.
The functioning of the brain and its role in learning, eating, drinking,
aggression, and behavioral abnormalities.
Prerequisites:
• PSY 272 with a minimum grade of D-
Restrictions:
• Must have the following level: Undergraduate

PSY440. Clinical and Counseling Psy . 3 Credits.
Review of clinical and counseling psychology, focusing on theory,
practice, research, and professional issues.
Prerequisites:
• PSY 272 with a minimum grade of D-
Restrictions:
• Must have the following level: Undergraduate

PSY442. Psychological Study of Social Problems . 3
Credits.
Study of one or more current social problems, such as violence, poverty,
education, drug use, war, through an examination of psychological and
social-psychological data and theory.
Prerequisites:
• PSY 272 with a minimum grade of D-
Restrictions:
• Must have the following level: Undergraduate

PSY456. Disaster Psychology . 3 Credits.
The psychological impact of disaster and trauma including normal and
severe reactions such as PTSD and Acute Stress Disorder will be studied.
Acute and long-term interventions, vicarious traumatization and self-care
will be examined.
Prerequisites:
• PSY 272 with a minimum grade of D-
Restrictions:
• Must have the following level: Undergraduate

PSY458. Introduction to Psychological Testing . 3
Credits.
Uses and limitations of present psychological techniques for assessing
ability, achievement, intelligence, personality, and abnormality. Objective
and projective personality tests.
Prerequisites:
• PSY 272 with a minimum grade of D- and PSY 275 with a minimum
  grade of D-
Restrictions:
• Must have the following level: Undergraduate
PSY493. Selected Topic. 3-12 Credits.
Selected topics courses are regularly scheduled courses that focus on a particular topic of interest. Descriptions are printed in the Schedule of Classes each semester. Selected topics courses may be used as elective credit and may be repeated for credit, provided that the topic of the course changes.

PSY494. Fieldwork In Psychology. 1-12 Credits.
Prerequisites:
• PSY 272 with a minimum grade of D-

Restrictions:
• Must have the following level: Undergraduate

PSY495. Independent Study Psychology. 1-12 Credits.
Prerequisites:
• PSY 272 with a minimum grade of D-

Restrictions:
• Must have the following level: Undergraduate

PSY497. Internship in Psychology. 3 Credits.
Supervised experience working in an applied setting related to psychology. This course is repeatable up to a maximum of 15 credits in practicum, fieldwork and independent study credits.
Prerequisites:
• PSY 272 with a minimum grade of D-

Restrictions:
• Must have the following level: Undergraduate

PSY498. Seminar in Psychology . 3 Credits.
Advanced study in a specific area of research, theory, or practice. Writing intensive.
Prerequisites:
• PSY 311 with a minimum grade of D- and (ENG 180 with a minimum grade of D- or ENG 206 with a minimum grade of D- or ENG 170 with a minimum grade of D- or ENG 207 with a minimum grade of D-)

Restrictions:
• Must have the following level: Undergraduate
