EARLY CHILDHOOD & CHILDHOOD EDUCATION

Phone: (845) 257-2860  
Location: Old Main Building 223

The Early Childhood & Childhood Education Program is a four-year Bachelor of Science program that prepares students for careers as teachers of children from birth through grade six. Graduates of the program are qualified to receive dual certification, i.e., teaching certification in both Early Childhood Education (birth through grade two) and Childhood Education (grades one through six). To obtain these certifications, students must complete the program and pass ALL required New York State Teacher Certification Examinations.

Teacher candidates learn the skills required to work effectively with children from different backgrounds and in different settings, including developmentally appropriate teaching practices and curriculum planning. A thorough grounding in child development is part of the program, as is an understanding of a balanced approach to teaching literacy. The program further emphasizes a mastery of mathematics, social studies, and science appropriate to the elementary school years. Throughout the curriculum, we promote an interdisciplinary approach to teaching and learning in the elementary classroom. This is a rigorous program that requires extensive field experiences in sites chosen for their appropriateness by the Student Teaching Coordinator. Candidates are responsible for their own transportation to field sites and cannot expect to have sites close to the New Paltz campus or their homes. All efforts are made to find sites within one hour of the New Paltz campus.

Entrance into the Early Childhood & Childhood Education program requires at least 24 college credits with an overall GPA of 3.0 or better. (See Program Entrance Requirements for detailed requirements.)

General Education Requirement

Elementary Education students take selected course work under advisement to meet the College's General Education requirement. Some General Education courses also fulfill prerequisites of the Early Childhood & Childhood Education program. See the Education Adviser (Old Main Building, B122) to ensure that all curricular requirements are met.

Certification Requirements

Fingerprinting

All teacher candidates must be fingerprinted by MorphoTrust upon acceptance into an education degree program. To make an appointment, please go to https://ny.ibtfingerprint.com. For a list of locations, please check http://www.1enrollment.com/locations/?st=ny.

Child Abuse Identification Workshop

All candidates for teacher certification will complete a State-mandated two-hour training lecture on recognizing and reporting child abuse or neglect. Group sessions will be provided on campus, or students may take the training from social service agencies, community colleges, or BOCES. This is not a credit course and evidence of training must be documented on candidates' transcripts.

Dignity for All Students Act (DASA) Training

All students will complete a six-hour training in the prevention of bullying and harassment. Training is provided periodically on campus or may be taken through BOCES or another approved provider. This is not a credit course and evidence of training must be documented on students' transcripts.

Schools Against Violence in Education (SAVE) Act Training

All students will complete a two-hour workshop in school violence prevention. Workshops are held periodically on campus or may be taken elsewhere through an approved provider. This is not a credit course and evidence of training must be documented on students' transcripts.

New York State Teacher Certification Examinations

Prospective Early Childhood & Childhood teachers (B-6) are required to achieve passing scores on the ALST (Academic Literacy Skills Test); EAS (Educating All Students); CST (Content Specialty Test) Multi-Subject for Birth-Grade 2 and Multi-Subject for Grades 1-6; and one corresponding edTPA (Teacher Performance Assessment) for the initial certificate.
