### Total Credits

42-45

1 The internship and corequisite seminar may only be taken with the chair’s permission and after the major has been completed or nearly so. Students may take GEO480 Internship in Geography for 3, 6 or 9 credits.

This eight-semester plan (see important details) is intended to guide a first-year student through a four-year undergraduate career, with completion of an academic major and all college-wide degree requirements. The plan is designed as an advising tool – a starting point for careful discussions between a student and his/her academic adviser. In consultation, the student and adviser will adjust the plan to accommodate the student’s prerequisite needs, transferred credits, and other such variables.

Students are responsible for reviewing their Progress Reports each semester to track their own progress toward degree requirements.
